

Mohamed Elsayed

University Avenue, Edmonton, AB

✉ mohamedelsayed@ualberta.ca 🌐 mohmdelsayed.github.io

Research Objective.....

Developing general-purpose mechanisms for continual deep reinforcement learning agents, particularly resource-constrained embodied agents that learn in deployment

Education

Doctoral of Philosophy

University of Alberta, Canada

Computing Science. Advisor: A. Rupam Mahmood

GPA: 4.0/4.0

Expected Graduation: Sep 2026

Master of Science

University of Alberta, Canada

Computing Science. Advisor: A. Rupam Mahmood

GPA: 3.9/4.0

2019-2022

Bachelor of Science

University of science and technology, Zewail City, Egypt

Major: Communication and Information Engineering. Minor: Physics of the Earth and Universe.

GPA: 3.7/4.0

2014 – 2019

Experience

Huawei

Support Researcher, Intern

Edmonton, Canada

May 2020 - Dec 2020

- Worked on autonomous intersection navigation for the unprotected left turn problem with RL.
- Co-authored a workshop paper in NeurIPS ML4AD.

Nara Institute of Science and Technology

Robotics Research Intern

Nara, Japan

Aug 2018 - Sep 2018

- Worked on Semantic SLAM problem using deep learning techniques.
- Worked on map in-painting techniques.

Valeo

Deep Learning Research Intern

Smart Village, Egypt

Jul 2018 - Aug 2018

- Worked on automotive-related projects (classification, semantic segmentation, and detection).
- Handled new state-of-the-art network architectures and bench-marked on related works.

Teaching

University of Alberta

Graduate Teaching Assistant

Edmonton, Canada

- CMPUT 174: Introduction to the Foundations of Computation
- CMPUT 365: Introduction to Reinforcement Learning
- CMPUT 340: Introduction to Numerical Methods

Sep 2019 - April 2020

Sep 2022 - Dec 2022

Jan 2024 - April 2024

Zewail City of Science and Technology

Junior Teaching Assistant

Cairo, Egypt

Sep 2018 - Dec 2018

- CIE 417: Machine Learning

Publications

Conferences and Journals:

Talks

Streaming Deep Reinforcement Learning is Now Possible <i>Openmind Research Institute Retreat</i>	Oct 2024
Utility-based Representation Search <i>Tea Time Talk, University of Alberta</i>	Aug 2023
Towards Continual Learning Optimizers <i>RL Sofa, Mila</i>	April 2023
Utility-based Perturbed Gradient Descent <i>Lifelong Reinforcement Learning Barbados Workshop</i>	February 2023

Service

- **Reviewer** at ICLR 2023, CoLLAs 2024, RLC 2024, NeurIPS 2024, ICLR 2025.
- **President** of IEEE Zewail City Student Branch (2017) (Granted University Best Leader Award).

Technical Skills

- **Programming Languages:** Python, C/C++
- **Software Libraries:** Pytorch, Jax
- **Technologies:** Git, Bash, $\text{\LaTeX}$
